

TRAINING IN A BOX BUT NEVER TICK-THE-BOX.

Cyber security, but make it fun. Escape rooms, workshops, and bespoke adventures that turn your team into cyber-savvy pros. Because boring training just isn't our thing.

LEVEL UP YOUR TEAM.

From hands-on challenges to immersive experiences, our services are designed to sharpen your team's skills and spark their curiosity. Whether you're building awareness, fostering teamwork, or just shaking up the usual routine, we've got you covered.

PHYSICAL ESCAPE ROOMS.

Step into the action - think high stakes, big brains, and plenty of "aha!" moments. Collaboration's never looked this cool.

45-60 MINUTES

DIGITAL ESCAPE ROOMS.

Remote doesn't mean boring. These online adventures are packed with twists, turns, and just the right amount of chaos.

10-45 MINUTES

WORKSHOPS.

No lectures, no yawns - just hands-on, practical sessions that actually stick. Time to level up your skills.

2-8 HOURS

CAPTURE THE FLAG.

Battle it out in this cyber showdown. Who'll outsmart, out-hack, and outlast? Only the savviest will survive.

4-48 HOURS

CUSTOM COMBOS.

Why pick one when you can have it all? Build your dream experience with a bit of everything we offer.

UP TO YOU!

PHYSICAL ESCAPE ROOMS.

BOOST COLLABORATION. SHARPEN PROBLEM-SOLVING. HAVE A BLAST.

Looking for a hands-on way to engage your team? Our Physical Escape Rooms are the ultimate tool for building collaboration and problem-solving skills. Packed with puzzles, challenges, and just the right amount of adrenaline, these immersive experiences bring your team together like never before.

Perfect for:

- End-User Security Awareness Training: Transform dry concepts into unforgettable lessons your team will actually remember.
- Conferences and Events: Stand out with an activity that's as fun as it is impactful.

THE HEIST.

You're part of Atomic Kitten, an elite hacker crew with a nose for opportunity. Today's jackpot? A rucksack left behind on a train. Rookie mistake, right?

With just 45 minutes before its owner catches on, your mission is clear: dig into her digital life, crack her bank account, and siphon off as much cash as you can. No pressure—just the whole gang counting on you.

Think you're up for the job? Time to earn your cut.

PASSWORDS & SOCIAL MEDIA PRIVACY

ELEMENTARY.

Step into Victorian London, where Hawthorne Clockworks is on the verge of a groundbreaking invention—until a ransom note from "The Grey Fox" changes everything.

With Mr. Hawthorne called away, it's up to Dr. Watson and his team to crack the clues hidden in Sherlock Holmes' office. Can they outsmart the cunning insider and save the blueprints before time runs out?

CRYPTOGRAPHY & INSIDER THREAT

THE DILEMMA.

The CEO of Foogole (definitely not Google) has been hit by ransomware and done a runner—leaving you to clean up the mess. All you've got to work with? A locked briefcase, phone, wallet, and notebook.

You've got one hour to stop the attacker from leaking sensitive data to Rupert Murdoch and his cronies. No pressure, right? Good luck!

Available in South Africa only.

PHISHING & RANSOMWARE

Combine our escape rooms with workshops, digital games, or Capture the Flag events for a full-spectrum approach to security awareness. It's the perfect way to complement your ongoing programmes and keep your team's skills sharp.

ARE YOU READY TO ESCAPE THE ORDINARY?
CYBERESCAPEROOM.CO

**NO MATTER WHERE
YOUR TEAM IS, OUR
DIGITAL ESCAPE
ROOMS DELIVER AN
ENGAGING,
UNFORGETTABLE
EXPERIENCE.**

DIGITAL ESCAPE ROOMS.

Our brand-new Digital Escape Rooms bring the excitement of our immersive experiences straight to your fingertips. Perfect for remote teams or global offices, these adventures are playable on WhatsApp and Microsoft Teams, making them as accessible as they are thrilling.

THE SYNDICATE.

Think you've got what it takes to infiltrate the notorious DiMarco family? In this high-stakes virtual escape game, you'll use WhatsApp to decode messages, crack portals, and pull off daring stunts to expose a cybercrime empire.

PHISHING & PASSWORDS

HACKER HELPLINE.

Step into the role of a Hacker Helpline operative, where wannabe hackers call in with questions about pulling off common attacks. Your job? Guide them through the tricks of the trade while uncovering who's really behind the calls.

OSINT, PASSWORDS, PHISHING

CAPTURE THE FLAG.

DevSecOps teams are often the unsung heroes of security, but they shouldn't be left out of the action. Our Capture the Flag events are designed specifically with you in mind - challenging your technical know-how while sharpening your security instincts.

From hunting vulnerabilities to exploiting misconfigurations, these hands-on challenges are perfect for reinforcing secure coding practices, identifying gaps, and fostering collaboration across your team. It's training that speaks your language - and delivers skills you can take straight back to the pipeline.

WORKSHOPS & TALKS.

Our Breach Workshop is tailor-made for senior leadership teams and incident response groups looking to master the end-to-end incident response process. Through an interactive tabletop exercise, you'll step into a realistic breach scenario, gaining practical experience and insights. Plus, you'll walk away with a customised playbook to strengthen your own response activities.

NEED EXPERT INSIGHTS?

We also provide engaging speakers on a range of cyber security and related topics. These sessions pair perfectly with our escape room activities, offering a deeper dive into key concepts and boosting your team's understanding.

READY TO SKILL UP?

CYBERESCAPEROOM.CO

CUSTOM COMBOS.

Can't decide? Don't!

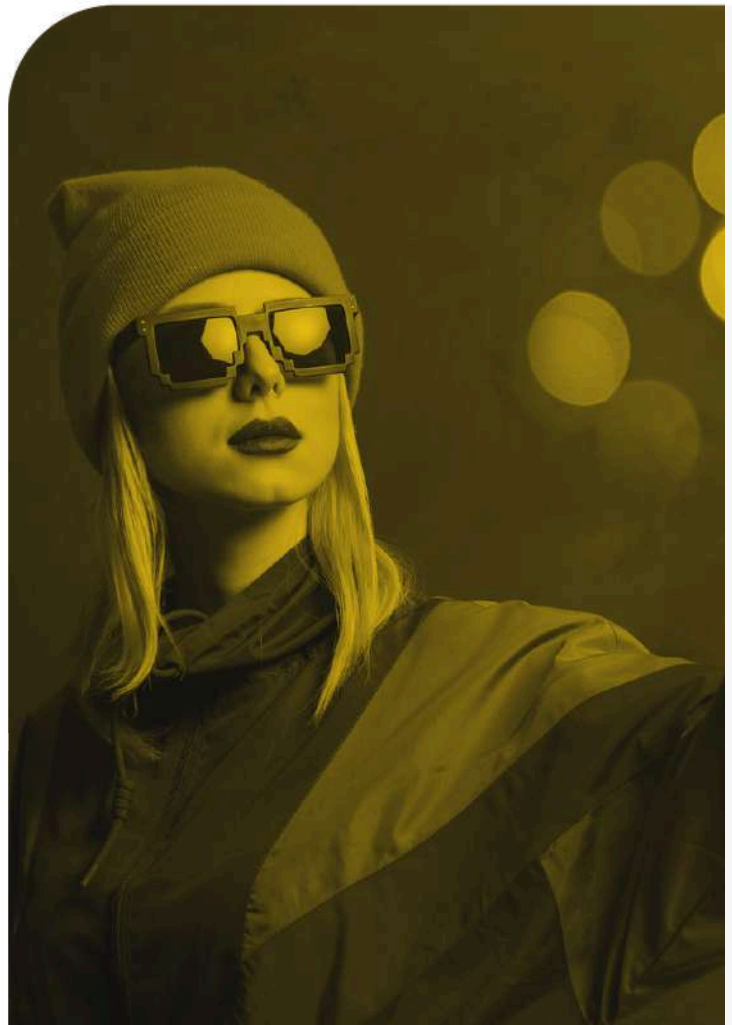

With our Custom Combos, you can mix and match from our entire line-up:

- Hosted or self-hosted physical escape rooms
- Digital escape rooms
- Capture the Flag challenges
- Hands-on workshops
- Speakers
- and even custom-designed scenarios.

Whether you're planning a team-building day, a killer conference activity, or a full-scale security awareness programme, we'll help you create a package that's as unique as your team. No cookie-cutter solutions here... just the right blend of fun, challenge, and learning.
